

CHANTELLE SHERVILL

Chantelle Shervill is the Manager of Medical Affairs at Waypoint Centre for Mental Health Care. Chantelle is a BA Graduate from the University of Western Ontario and holds a Diploma in Health Care Management from the Ontario Hospital Association. She has been a proud member and Fellow of the Canadian Association of Staff Physician Recruiters since 2014, and currently sits on the CASPR Board as Executive Chair of the education committee.

Chantelle moved to the hospital sector after a long career in sales, marketing, and customer service training to fulfill her desire to help people. In addition to managing Consent and Capacity Board liaison staff, Dental, Electro Convulsive Therapy, and Clinical Contract services at Waypoint, her portfolio also includes the coordination of Rural Ontario Medical Program Medical clerks and Residents at the facility and the recruitment and retention of all Psychiatrists and General Practitioners. She believes that by recruiting the best of the best, and creating a strong retention strategy at Waypoint, she can have a tangible impact on positive patient outcomes.

Personally, Chantelle lives in beautiful Tiny Township with her husband Ryan, two daughters and two crazy Labrador retrievers. In her spare time she continues her Human Resource studies through McMaster University, is a runner and tri-athlete and thoroughly enjoys all of the outdoor activities that the Midland and Penetanguishene area have to offer.
