

DR. GUSCOTT

Course Director Dr. Jesse Guscott is a rural generalist and medical educator. His ever evolving clinical practice has included Anesthesia, Emergency and Hospitalist medicine.

A passionate, award winning educator, he is the long standing Program Director for the McMaster Family Practice Anesthesia resident training program and he is the Simulation Program Director at the Collingwood General and Marine Hospital.

Jesse has been involved in simulation education for over a decade as a debriefer, curriculum developer and faculty instructor. He is a core faculty member for the NOSM Anesthesia boot camp and he teaches a number of CME courses such as AIME and The Hemodynamic Instability Course. He is most at home when debriefing simulation.
